Parking – Access Management

The college and university environment — with buildings, students and staff often spread out over a wide expanse — requires a customized, multi-faceted approach to parking and access management.

Parking Management

Vehicles on campus raise a host of issues – permit parking, reserved parking, parking for the disabled and parking for special events. We help institutions manage their parking resources with efficient plans to economically allocate available spaces to meet demand while maintaining positive relations within the institution and the surrounding community.

- > Permit issuance and fee collection
- > Enforcement and ticketing
- > Parking office staffing

We provide expert analysis of parking demand and solutions to accommodate local requirements, along with near-term revenue and expense budgets, rate recommendations and the long-range revenue and expense forecasts needed to procure financing.
